I am currently working on a **PERN stack** project with my college team, focusing on a unique idea for self-learning. As a backend developer, I utilize **Node.js**, **Express.js**, and **PostgreSQL**, with **Neon** as the data handler.

## PROJECTS

### Student Things | [link](#)

- This is my **full-stack project** built with **HTML**, **CSS**, **JavaScript** with **Bootstrap** for the frontend and **Node.js**, **Express.js**, and **MongoDB** for the backend.
- Students can register, log in, upload projects, update/delete profiles, and interact with other students' projects.

### Realtime Chat Webapp | [link](#)

- Built a real-time chat app using **HTML**, **CSS**, **JavaScript**, **Tailwind CSS**, **Node.js**, **Express.js**, and **Socket.IO** for seamless communication.
- Integrated **PostgreSQL(Neon)** to store user details and enable personal chats. Enhanced the experience with **Gemini API**, adding intelligent chatbot functionality.

### ViewForReview | [link](#)

- This is our diploma final year full stack group project. My contribution to this project is frontend side.
- I have created several responsive webpages using frontend technologies like **HTML**, **CSS**, **JavaScript** with **GSAP** library. I **represented this project** in the external submission on behalf of my group.

## EXPERIENCE AND TRAINING

### QF Avionics | Client Project | Frontend Developer

Nov 2024

- Worked on a **foreign client project** that our team undertook collaboratively. Focused on designing and developing responsive web pages using **HTML**, **CSS**, **JavaScript**, and **Bootstrap** to create dynamic, user-friendly layouts.
- Collaborated closely with the team to ensure designs aligned with client requirements.

### INFOLABZ IT Services PVT. LTD. | Summer Internship

Jul 2022

- I completed my 15 Days offline internship in INFOLABZ. During this internship I learnt **python** and **API handling** as well as worked on architecture of **Django** framework.
- I also learnt the fundamentals of IoT along with hands-on practice on analog sensors using Arduino.
