EDUCATION

Bachelors of Engineering in **Information Technology | 7.00** CPI   *Aug 2023 - Present*
   At Government Engineering College, Modasa (Affiliated with Gujarat Technological University)

Diploma in Engineering in **Information Technology | 8.42** CGPA   *Aug 2020 - Jun 2023*
   At Government Polytechnic, Ahmedabad (Affiliated with Gujarat Technological University)

EXPERIENCE AND TRAINING

INFOLABZ IT Services PVT. LTD. **|** Summer Internship   *Jul 2022*

   I completed my 15 Days offline internship in INFOLABZ. During this internship I learnt python and API handling as well as worked on architecture of Django framework. I also learnt the fundamentals of IoT along with hands-on practice on analog sensors using Arduino.

TECHNICAL SKILLS

Programming Lang. : C **|** JAVA **|** DSA with JAVA **|** Object Oriented Programming(OOPs)

Frontend : HTML5 **|** CSS3 **|** JavaScript

Backend : Node.js **|** Express.js **|** PHP

Libraries/ Framework : jQuery **|** Tailwind CSS **|** Bootstrap 5

Databases : MySQL **|** MongoDB

Tools : Git **|** GitHub **|** Word **|** Excel **|** PowerPoint **|** ChatGPT

PROJECTS

QF Avionics

   Worked as a Frontend Developer on a foreign client project, focusing on designing and developing responsive web pages. Utilized **HTML, CSS, JavaScript,** and **Bootstrap** to create dynamic, user-friendly layouts. Collaborated with the team to align designs with client requirements and project goals.

ProjectVarse.com

   This is my full stack project. Where I have used **HTML, CSS, JavaScript** with **Bootstrap** framework as frontend technology. For backend I used **Node.js, Express.js. MongoDB** as a database. in this website students can register/login. Students can upload projects, update/delete the profile, view other students project likes them and their ID, update/delete their own projects and many more things which helps to improve my backend skills.

Realtime chat Webapp

   Developed a real-time chat web application utilizing **HTML, CSS, JavaScript,** and **Tailwind CSS** for a responsive and user-friendly design. Implemented backend functionality using **Node.js** and **Express.js,** with real-time communication powered by **Socket.IO**.

ViewForReview (RateIt.com)

   This is our diploma final year full stack group project. My contribution to this project is frontend side. I have created several responsive webpages using frontend technologies like **HTML, CSS, JavaScript** with **GSAP** library. I **represent this project** in our external submission from my group side.
